

Master 20% English Words (Pareto Principle)

The **80/20 rule (Pareto Principle)** means that **20% of what you learn will give you 80% of the results**. You can use this rule to **learn English faster and speak more fluently** by focusing on the most important aspects of the language. Here's how:

1. Learn the Most Common Words & Phrases (20%)

Instead of trying to learn **every** word, focus on the most **frequent** words and phrases used in daily conversations.

- ♦ **Common Words:** Learn the **1000 most used English words**, as they cover **80% of daily conversations**.
- ♦ **Common Phrases:** Focus on practical phrases like greetings, asking for help, giving instructions, etc.
- ♦ **Example Sentences:** Learn sentences, not just words. Instead of memorizing "efficient," learn **"This method is efficient."**

 **Example:**

- Instead of learning difficult words like **"inevitable"**, learn simple alternatives like **"it will happen for sure."**
 - Learn sentence patterns like: **"Can you help me with...?"**, **"I think that..."**, **"What do you mean?"**
-

2. Master Basic Grammar & Sentence Structures (20%)

You don't need to learn **advanced** grammar to speak fluently. Focus on:

- ✓ **Simple Sentence Structures: Subject + Verb + Object** (e.g., **"I like coding."**)
- ✓ **Tenses That Matter:** Learn **Present, Past, and Future** tenses first.
- ✓ **Common Mistakes:** Focus on fixing **basic grammar errors** (e.g., "He go to school ❌" → "He goes to school ✓").

 **Example:**

- ♦ **Past** – "I went to the market."
 - ♦ **Present** – "I am learning English."
 - ♦ **Future** – "I will call you later."
-

3. Speak More, Even If You Make Mistakes (80% Speaking, 20% Studying)

 The biggest mistake learners make? **Studying too much but not speaking enough.**

- Practice speaking **every day**, even for **5-10 minutes**.

- Don't worry about mistakes—**fluency comes from practice, not perfection!**

- ♦ **How to Practice?**

- ✓ **Talk to yourself** in English (describe what you're doing).
 - ✓ **Practice with friends** (like a coding friend or online groups).
 - ✓ **Use voice recording apps** and listen to yourself.
-

4. Use English in Your Daily Life (Passive Learning)

Even when you're not actively studying, you can **absorb** English naturally:

- ✓ **Watch Movies & YouTube** in English (turn on subtitles at first, then remove them).
- ✓ **Change your phone & laptop language** to English.
- ✓ **Read Simple English Books** (or tech blogs in English).
- ✓ **Follow English-speaking coders** on Twitter, LinkedIn, etc.

📌 **Example:**

- If you love coding, **watch tutorials in English** instead of your native language.
 - While traveling, **read English signboards and menus**.
-

5. Use AI & Language Tools (Shortcut to Fluency)

- ✓ **Chat with AI (like me)** in English daily.
 - ✓ **Use apps like Duolingo, Grammarly, and Anki** for vocabulary and grammar.
 - ✓ **Watch English podcasts** while coding or traveling.
-

Summary: Apply the 80/20 Rule

- ✓ **Learn 1000+ common words** (20% of words = 80% fluency).
 - ✓ **Focus on simple grammar & sentences** (skip advanced rules).
 - ✓ **Speak every day** (don't wait to be "perfect").
 - ✓ **Surround yourself with English** (movies, books, social media).
 - ✓ **Use AI & tools** for faster learning.
-

🔥 Action Plan for You 🔥

- ♦ Pick **10 common sentences** and use them daily.
- ♦ Record yourself speaking English for **2 minutes** every day.
- ♦ Start **thinking in English** instead of translating.

You have a list of the **1000 most frequently used words in English** from the PDF. To remember them effectively, follow these steps:

80/20 Rule for Learning These Words

Instead of memorizing all 1000 words at once, focus on **the first 100** because they make up **half of all written material!**

Step-by-Step Learning Plan

1 Learn 25 Words at a Time (Chunking)

- Break the list into **sets of 25 words** and focus on **one set per day**.
 - Say the words aloud and write **5 sentences** using them.
 - Example: If today's list includes **"the, of, and, a, to"**, make sentences like:
 - "The book is on the table."
 - "I went to the market."
-

2 Use Flashcards (Active Recall)

- Create **physical** or **digital** flashcards (Anki or Quizlet).
 - One side: **Word**, Other side: **Sentence Example**
 - Example:
 - Front: **"find"**
 - Back: **"Can you find my keys?"**
-

3 Read & Spot These Words

- Read **articles, subtitles, blogs**, and highlight words from your list.
 - Example: **While reading a tech article, underline words like "make, use, find."**
-

4 Speak & Use the Words Daily

- Try using **new words** in your daily conversations.
 - Example: Instead of "I see," say **"I notice"** or **"I observe."**
-

5 Test Yourself (Spaced Repetition)

- Revise **every 3rd day** what you learned before.
- Example: If you learned **25 words on Monday**, review them on **Thursday**.

Bonus: Fun Learning Methods

- ✓ Play Word Games (Scrabble, Crossword, Wordle)
- ✓ Listen to English Podcasts & Spot the Words
- ✓ Write a Short Story Using 10 New Words
